## NEHC Announces Navy HIV Instructor Certificate

Sailors and DON civilians who are educating Navy audiences about HIV prevention will now be NEHC-certified HIV Instructors!

There are **2 training requirements** to become a certified Navy HIV Instructor.

1. You'll need to complete the on-line self study "**Navy HIV Instructor Course**", which is downloadable from your SHARP homepage (hardcopy also available from SHARP). It takes only about 2 hours to complete, and will provide you with a comprehensive synopsis of Navy HIV policy and procedures. Complete the exam and e-mail or fax your answers to SHARP.
2. You'll need to complete some form of **technical training** regarding HIV pathology and prevention. This can be attained in many ways. For example, credentialed health care providers, Navy Preventive Medicine Technicians, Environmental Health Officers, Preventive Medicine Officers, etc. already have sufficient training. Others may complete the **American Red Cross** HIV Instructor Course, or a State or CDC HIV-STD training course.

**Register to be a Navy HIV Instructor at your SHARP homepage!**
